Urgent Appeal for Donation

The Fredericton community has been struggling with a dire need for a new mosque. The mosque served the community comfortably when there were only 200 Muslims in the city in 1995; however, the city is now home to more than 3,500 Muslims, and this number continues to increase rapidly. The mosque is an overcapacity and 150-year-old building.

Our initial efforts paid off as the campaign gained momentum and people started contributing to the cause. After months of hard work and dedication, the community raised enough funds to purchase 2.5 acres of land, got approval from the city council, and cleared the land, but not enough to start Phase 2 (building the main prayer hall) of the construction project. Community members are filled with hope and determination to reach 1.5M to 2M (due to cost-push inflation) goal.

We need your generous contributions so that we can complete our second and third phases. Please note that we have no other sources of halal funds than yours' and that contributions in this month of Ramadan are worth more than any other time of the year. Also, such a contribution will be a "Sadaqah Jariyah" working on your behalf. And finally, Allah (SWT) is watching our actions. Our Board of Directors is working hard on your behalf to ensure that your contribution is used in the most efficient way, and Allah (SWT) is the only witness.

May Allah (SWT) make it easy for you to contribute generously to our campaign. Ameen.

Construction Starts: May 2024
